Marlene H. Dortch, Secretary
Federal Communications Commission
Office of the Secretary
9300 East Hampton Drive
Capitol Heights, MD 20743
CC Docket No.02-6

Dear Ms. Dortch:

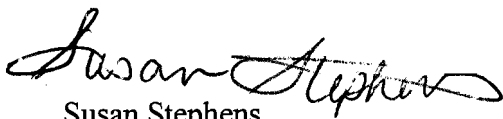

I am asking you to grant a waiver for **471 Application # 875177** for the Chattooga County Library System.

The Service Provider selected (Parker Systems, LLC), will be laying fiber optic cable in Chattooga County this year. This is a new venture and the first time fiber optic service has been offered in the county. The library system serves as the only free access community members have to the Internet, and as a result both branches are currently topping out on the bandwidth offered by their two T-1s. It will present a grave disadvantage to Chattooga County residents if we are not able to participate in this service.

There were several factors that caused us to miss the deadline by a day. The main fault was mine, however; I am experiencing vision loss and have had difficulty reading this winter. I sincerely believed that the date for the 471 Application deadline was March 26th, and marked my calendars accordingly. I can attain a doctor's affidavit as well as one from the low vision consultants I am currently working with to confirm my visional difficulty.

I am asking that you do not allow my physical handicap to penalize the citizens of Chattooga County. I have been filing e-rate forms for many years, and this is the first time that I have missed a deadline. Please grant this waiver request.

Sincerely,

Susan Stephens
Director
